

Graduation Extensions

April 2019

Honors Program deadlines are firm. Students submitting materials after posted deadlines will be considered for graduation the following semester once the student has officially changed their graduation date with their academic advisement center. Honors students may only extend graduation by **one semester** beyond completion of their major and other university requirements for the purpose of completing Honors requirements.

Students who are not in residence while completing Honors requirements should be aware they must return to campus for the thesis defense. (See Thesis Defense Attendance policy).
